Postquam - Medskin Enzymatic Peel Serum With Natural Ferments - 30ml

[Read More](#)

SKU: PQEBIOL03

Categories: [All Skin type](#), [Anti Aging Skin](#), [Face](#), [Whitening Skin](#)

Product Description

The enzymatic biological serum dissolves the dead cells of the epidermis and thus promotes cell regeneration. Its main ingredient is *Bacillus Ferment*, an enzymatic exfoliant obtained by fermentation, which gently removes dead cells to reveal younger, healthier skin. Promotes cell renewal. The skin appears thinner and smoother, hydrated and supple. Increases its luminosity and improves stains. Excess fat is regulated. It improves its permeability, and therefore increases the penetration of active ingredients into the skin. Suitable for vegans. Tested under dermatological control. **PRODUCT DETAILS**

How to use

1. With a clean and dry face, drop a few drops of the serum on your fingertips and apply with light touches until completely absorbed.
2. Complete the usual routine treatment on the entire face.

Active principles

BACILLUS FERMENT

- Proteolytic activity, remove dead skin cells which promotes cell renewal and leaves a radiant skin.

Postquam - Medskin Peeling Serum With Glycolic Acid - 30ml

[Read More](#)

SKU: PQEBIOL01

Categories: [All Skin type](#), [Anti Aging Skin](#), [Face](#), [Whitening Skin](#)

Product Description

Medskin Peeling Serum With Glycolic Acid

- The biological serum with glycolic acid helps eliminate dead skin cells.
- Its use is ideal for treating the signs of aging and skin imperfections.
- Promotes cell renewal.
- Its main component is glycolic acid, derived from sugar cane.

- It is an excellent natural exfoliant and moisturizer that penetrates deep into the skin, removing layers of dead cells and improving the appearance and texture.
- The skin is firm and luminous.
- Wrinkles, dark spots, and signs of aging are reduced.
- Skin tone becomes more even.
- Pores and imperfections are reduced.
- This "micro peeling" of serum gives the facial skin a youthful and healthy appearance.
- You have soft, velvety skin!
- Suitable for vegans.
- Tested under dermatological control.

PRODUCT DETAILS

How to use

1. With a clean and dry face, drop a few drops of the serum on your fingertips and apply with light touches until completely absorbed.
2. Complete the usual routine treatment on the entire face.

 - Gentle exfoliation, cleansing the skin of impurities.
 - Reduces stains caused by the sun or aging.
 - Attenuates small expression lines and wrinkles.
-

Postquam - Meladerm Phitology Depigmentante Day 50ml

[Read More](#)

SKU: PQEPHITMEL01

Categories: [All Skin type](#), [Face](#), [Whitening Skin](#)

Product Description

Day cream with SPF 15 that bases its composition on vegetable ingredients such as *Shea Butter*, *Macadamia Oil* and *Jojoba Oil* providing the skin with the necessary nutrients to preserve its natural well-being. Perfectly hydrated and protected from the effects of the sun, the skin regains its freshness and firmness. Its novel formulation incorporates ingredients of last generation vegetable origin such as the *root extract of Asian Sophora flavescens* or *kiwi water*. Its natural ingredients make it possible to prevent, correct and attenuate the intensity of skin blemishes. Get a more smooth skin, moisturised and protected from the effects of the sun thanks to its depigmenting active ingredients of vegetable origin. Day after day, the size and intensity of the spots visibly decrease. It also includes vitamins E and C, which give it high antioxidant power against premature ageing. After 28 days, the spots are corrected, the skin is more uniform and luminous. Scientifically proven moisturising effect. Its continued use produces a moisturising cumulative impact in the upper layers of the skin of 92% of volunteers. Scientifically proven depigmentation effect. Its continued use reduces hyperpigmented spots in 77% of volunteers. **BENEFITS**

- Improves and unifies skin tone.
- Corrects and reduces stains.
- Antioxidant.

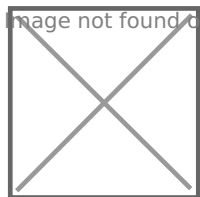

It Tested under dermatological control.

How to use

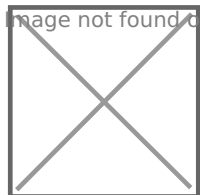

1. In the morning, with a clean face, apply the moisturizer from the centre of the face and extend outward.

2. Then spread gently with your fingertips along the contour of the face, avoiding the eye area. Repeat and extend until completely absorbed.
3. Make small touches with your fingers, paying particular attention to wrinkles and expression lines.
4. For greater effectiveness use in combination with *Meladerm Night Depigmentation Cream*.

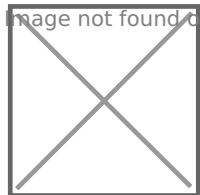

What is it made of?

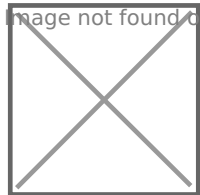

Butyrospermum Parkii Butter • Deeply hydrates, nourish and improves skin appearance of wrinkles and decreasing the signs of ageing. • Retains the moisture to the skin, leaving it smooth and soft. Especially recommended for dry and cracked skin.

Actinidia Chinensis Fruit Water (Kiwi) • Kiwi extract. Very rich in vitamin C and antioxidants, it promotes skin regeneration. It is an ideal food to fight spots, wrinkles and expression lines or helps to regulate excess sebum in the skin, so it helps to cleanse facial pores.

Sophora Japonica Root Extract • This plant extract from sophora flavescens has a depigmenting potential on the skin, scientifically proven. • This natural extract has high efficacy, such as flavones (Sophoraflavanone G) and alkaloids (Matrina). Its high efficacy helps to reduce the spots in a visible way acting globally on the dermal and epidermal causes.

Vitamin C • Effective antioxidant for the skin that fights the signs of ageing and improves skin texture. • Increases skin hydration levels and improves skin firmness.

Postquam Phitology Whitening Night Cream

Product Description

This physical peel, which comes in the form of a brown emulsion with black particles, is based on the use of exfoliating particles of volcanic sand to eliminate dead cells from the epidermis, favouring cell renewal. The use of Asian sophora flavescens root extract and kiwi water give

depigmenting properties. Its continued use provides optimal conditions to the skin. Its novel formulation incorporates ingredients of plant origin such as the root extract of Asian sophora flavescens, kiwi water or aloe vera. Its natural ingredients make it possible to prevent, correct and attenuate the intensity of skin blemishes. The use of Tahiti's black sand provides a soft and clean skin, free of imperfections. It also includes vitamin C giving it a high antioxidant power against premature ageing. Day after day, the size and intensity of the spots visibly decrease. After 28 days, the spots are corrected, the skin is more uniform and luminous. Scientifically proven moisturising effect. Its continued use produces a moisturising cumulative impact in the upper layers of the skin of 77% of volunteers. Scientifically proven depigmentation effect.
