Product Description

OSMO Ikon permanent hair colours exclusive Micro-Connective Technology with Sunflower Seed Extract guarantees consistently perfect results at every stage of the colouring process, while multiple shade options allow creativity and versatility. Micro-sized OSMO Ikon colour molecules are easily absorbed into the hair cuticle, allowing for a far lower ammonia content. Hair conditioning is significantly improved. MCT molecules are locked into the cuticle, providing longer lasting colour clarity, complete grey coverage and multi-dimensional shine. This product is for professional use only and to be used by Hair, Beauty students or qualified person. Please contact us directly by phone 21820112 or email info@beautycentremalta.com for further information.
